CROP PRODUCTION (IV) – FIELD PRACTICES

1. **1997**
 State four reasons for pruning fruit crops (2 marks)

2. **1998**
 Give two reasons for drying grains before storage. (2 marks)

3. **1999**
 (a) Why is training done in some crops. (1 mark)

 (b) Name two crops, which require training.

4. **1999**
 State two factors that determine the stage at which a grain crop is ready for harvesting (1 mark)

5. **1999**
 State four benefits of using organic matter for mulching, sounds (2 marks)

6. **2000**

State two ways in which inorganic mulch helps to conserve moisture in the soil (1 mark)
.....
.....

7. 2001:

(a) What is crop rotation? (1 mark)
.....
.....

(b) State three advantages of crop rotation. (1 mark)
.....
.....
.....

(c) State three factors considered when designing a crop rotation program (2 marks)
.....
.....
.....

8. 2006 Q19 P1

State three advantages of multiple stem pruning over single stem pruning in coffee (1½ marks)
.....
.....
.....

9. 2007 Q5

Give four advantages of crop rotation (2 marks)
.....
.....
.....
.....

10. 2007 Q21 P1

The diagrams labeled D and E below are illustrations of coffee established using two different formative pruning systems. Study them and answer the questions that follow.

(a) Name the system of pruning illustrated in diagram D above (1 mark)

.....

(b) Outline how the pruning system illustrated in diagram E is carried out (2 marks)

.....
.....
.....
.....

11. 2008 Q27a P1

State and explain five advantages of crop rotation

(10 marks)

.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....

12. 2009 Q27 P1

(a) Why is the use of the following items essential during the harvesting of tea?

(i) plucking stick

(1 mark)

.....
.....

(ii) Woven basket

(1 mark)

(b) The diagram below illustrates a field management practice in tomatoes. Study it carefully and answer the questions that follow.

(i) Identify the field practice

(½ mark)

.....
(ii) State three reasons for carrying out the practice (1½ mark)

.....
.....
.....

13. 2009 Q29a P1

(a) Explain five advantages of mulching in crop production (5 marks)

.....
.....
.....
.....
.....
.....
.....
.....

14. 2010 Q15 P1

Give four factors that would determine the stage at which a crop is harvested. (2 marks)

.....
.....
.....
.....

15. 2010 Q20 P1

(a) The diagrams below represent two ways in which a crop was pruned. Study them carefully and answer the questions that follow.

(i) Which diagram represents the correct way of pruning? (1 mark)

mark)

(ii) Give a reason for your answer in (i) above. (1

(b) State two ways in which pruning assists in controlling crop diseases. (1 mark)

16. 2011 Q3, 5 P1

3. State four disadvantages of mono cropping in crop production (2 marks)

5. State two ways in which crop rotation controls weeds (1 mark)

17. 2011 Q13 P1

List four post-harvest practices that are carried out in maize production (2 marks)

18. 2012 Q1 P1

Name the part harvested for each of the following crops:

- (a) Onions (1/2 mark)
- (b) Carrots (1/2 mark)
- (c) Coffee (1/2 mark)

19. 2012 Q6 P1

State four disadvantages of using organic manure in crop production. (2 marks)

.....

20. 2012 Q8 P1

State four disadvantages of organic mulches (2 marks)

.....

21. 2012 Q9 P1

Give five advantages of practicing crop rotation (2 1/2 marks)

.....

22. 2012 Q14 P1

State four factors that determine the stage at which a crop is harvested. (2 marks)

.....

23. 2012 Q25b P1

Describe the harvesting of tea (6 marks)

.....
