LIVESTOCK PRODUCTION (II) – NUTRITION

1. **1995**
 What is a production ration as used in animal nutrition? (1 mark)

2. **1995**
 Name two groups into which vitamins are classified. (1 mark)

3. **1996**
 State 3 factors that influence the amount of water intake by a farm animal. (1½ marks)

4. **1996**
 - (a) Differentiate between a roughage and a concentrate feed in animal nutrition. (2 marks)

 - (b) State three ways in which a production ration may be utilized by cattle. (3 marks)

5. 1998

Give four characteristics of a livestock roughage feedstuff.

.....
.....
.....
.....
.....

6. 1998

Outline four functions of proteins in the body of an animal. (2 marks)

.....
.....
.....
.....
.....

7. 1999

Outline four factors that determine the nutritional requirements in cattle (2 marks)

.....
.....
.....
.....
.....

8. 2000

Give 4 functions of calcium in dairy cow. (2 marks)

.....
.....
.....
.....
.....

9. 2001

State four factors that are considered when formulating a livestock ration (2 marks)

.....
.....
.....
.....
.....

10. 2002

(a) Explain the term “production ration” as used in livestock productions. (1 mark)

.....
.....
.....

(b) State four factors which determine the amount of feed an animal can consume. (4 marks)

.....
.....
.....
.....
.....

11. 2004.

State three reasons for feeding livestock. (1½marks)

.....
.....
.....

12. 2006 Q13 P2

Name two functions of the crop in the digestive system of chicken. (1 mark)

.....
.....

13. 2006 Q20 P2

(a) Define the term digestible Crude Protein (DCP) (½ mark)

.....
.....
.....

(b) A farmer wanted to prepare a 200kg of calf rearing ration containing 20% DCP. Using the Pears Square Method, calculate the amount of Maize containing 10% DCP and Sunflower containing 35% DCP the farmer would need to prepare the ration. (Show your work) (4 marks)

.....
.....
.....
.....
.....
.....

14. 2007 Q5 P2

State three factors that would determine the amount of concentrate fed to dairy cattle. (1 ½ marks)

.....
.....
.....

15. 2008 Q1 P2

State four factors that determine the amount of water required by livestock. (2 marks)

.....
.....
.....
.....
.....

16. 2008 Q13 P2

Name the part of poultry digestive system in which cellulose is digested (½ mark)

.....

17. 2009 Q23b P2

(b) Describe the process of digestion in the following sections in the alimentary canal of a non-ruminant animal:

(i) Mouth (1 mark)

(ii) Stomach (3 marks)
.....
.....
.....
.....

(iii) Small intestine (6 marks)
.....
.....
.....
.....
.....
.....
.....
.....
.....
.....

18. 2010 Q5 P2
State **four** characteristics of roughage livestock feeds. (2 marks)

.....
.....
.....
.....
.....

19. 2010 Q6 P2
State two functions of the crop in poultry digestive system. (1 mark)

.....
.....
.....

20. 2010 Q26c P2
(c) Explain **five** functions of water in nutrition. (5 marks)

.....
.....
.....
.....
.....
.....

21. 2012 Q22c P2

(c) Giving a relevant example in each case, describe the role of the various components of a balanced diet in livestock nutrition. (10 marks)
